

	<h2>QUALITY POLICY</h2>	Doküman Kodu: KEK EK B1
		Döküman Rev. No.: 00
		Revizyon Tarihi: 02.05.2025
		Sayfa No: 1/1

At ASBİLEK, our primary principle is to maintain our leading position in circular saw blade manufacturing and to deliver value to our customers through a sustainable quality approach. We consider quality not only as a product feature but also as the holistic result of processes, employees, and collaboration. In this context, we aim to become a reliable brand in national and international markets through a continuous improvement approach.

In this regard, we commit to:

- Ensuring our products and services are designed, produced, and delivered on time in full compliance with customer needs and expectations,
- Fulfilling the requirements of the ISO 9001 Quality Management System and continuously monitoring, measuring, and improving all our processes,
- Effectively evaluating customer feedback and managing complaints systematically to ensure continuous customer satisfaction,
- Sustainably investing in technologies, human resources, and equipment that ensure quality in our production processes,
- Managing supplier relations within the framework of quality criteria to achieve flawless product quality through a strong supply chain,
- Making quality control processes transparent, traceable, and open to improvement with the goal of zero defects,
- Organizing regular training sessions to raise quality awareness among all employees and fostering an internalized quality culture,
- Ensuring full compliance with all relevant legal and sectoral regulations,
- Closely following technological developments and sectoral needs to produce competitive and innovative solutions,
- Regularly monitoring our quality performance indicators and evaluating our progress toward targets.

We pledge to uphold these commitments.

General Manager
